

Technical Data Sheet

Atox Nature Silver

COMPOSITION: Premixture for animal feed.
1m558¹ (bentonite), E-562 (sepiolite) additives and 7.13.1 (activated carbon) carrier.

TECHNICAL INFORMATION

CHARACTERISTICS	
Color	Silver
Appereance	Free-flowing powder
Shelf life ²	5 years

PHYSYCO-CHEMICAL PROPERTIES		
	Test method ³	Specifications ⁴
Moisture ⁵ (%)	UNG-009	Max. 14
Particle size distribution by Dry sieving:		
Residue on 250 µm (%)	UNG-025	Max. 4,0

(1) Other specifications according to current legislation Reg. (EU) 1060/2013.

(2) From manufacturing date. Stored in dry place protected from humidity and preserved in original package.

(3) Tests methods employed in all Tolsa laboratories worldwide.

(4) Applicable to the whole batch.

(5) Measured at production point. Moisture can vary according to relative humidity.

* This product complies with the undesirable substances requirements in animal feed of European Directive 2002/32/EC, including Regulation (EU) N° 1275/2013 and other European registration requirement.
